Product Features

ExpressConnect

Be on 2 networks at once with the simultaneous multi-network connection for faster data and video downloads. Get up to 20% more in data transfer from optimized networking,30% faster application data processing and 8 times better video quality from optimized internet bandwidth.

4G and Wi-Fi 6E connections

Wi-Fi 6E allows 7 more channels with four times more bandwidth which provides faster,smoother Wi-Fi,especially in high-density areas.

Work remote for longer

Long battery life with ExpressCharge that provides up to 80% charge within short time.

Intelligent privacy

Onlooker detection notifies you when someone is peering at your screen and will texturize your screen. Look Away Detect knows when your focus is elsewhere and dims to further protect privacy and save battery life.

Enhanced camera

Look great on every video call with improved FHD IR camera. Available Temporal Noise Reduction enhances image quality in any light.

ExpressSign-In

A camera-based proximity sensor wakes your system on approach and locks when you walk away.

Intelligent audio

Artificial intelligence improves audio and voice quality and adjusts for different environments. Neural Noise Cancellation eliminates unwanted background noise as well as the background noise of the participants on your call.

ExpressResponse

Based on user behavior,ExpressResponse prioritizes your CPU to improve the performance of the apps you're currently using.

Cool under pressure

Larger dual opposite outlet fan with optimized venting and other thermal improvements keep your system cool even when working with multiple applications. It offers the broadest range of settings so you can finely tune for the perfect balance of performance,cooling and battery run time

Power for every project

Enable maximum productivity in more places with Intel vPro with 12th Gen Intel Core i5 processors.

Storage and memory to spare

With large DDR4 memory and SSD storage,no project is too big.

Dell's PCs made with bio-based materials

5000 series were made with tree-based bioplastic. The lid contains 21% bioplastic,30% recycled plastic and 20% reclaimed carbon fiber. It also added 39% bio-based rubber bumpers.

Innovating with even more recycled material

The Latitude 5000 series have the world's most innovative use of sustainable materials in mainstream business laptops,featuring recycled plastics,recycled carbon fiber,bio-based materials,and ocean bound plastics.

Easy on the eyes

Choose the bright 400 nit super low power panel for long battery run time,featuring ComfortView Plus low blue light technology to reduce eye strain for all day working.

Expansive screen in a small footprint

The 15"mainstream business laptop also has impressive screen to body ratio.
